

Documentation for the Health ABC Year 16 quarterly telephone interview data is identical to the Year 15 documentation with two exceptions:

1. Where “Year 15” appears in the documentation, “Year 16” should be substituted.
2. Substitute the prefix “**Y15Qq_**” in variable names with the prefix “**Y16Qq_**,” where q equals 1, 2, 3 or 4 depending on the quarter of the year.

Again, please refer to the Year 15 documentation for Year 16.
